& RH 700 shown in
Granite and Lily

About Grow Mode

Grow Mode's range of pots and planters are 100 percent recyclable and as green as the plant inside. Our products are durable, impact resistant, lightweight, easy to clean and maintenance free. With a wide range of standard and custom colour options on offer, Grow Mode pots and planters guarantee colour retention against today's harsh climate.

Green is in the air

Attain credits for your premises against the Green Star - Office Interiors rating program from the Green Building Council of Australia. The introduction of plants to any enclosed area is the most effective way to improve air quality and reduce volatile organic compounds, which can cause headaches, loss of concentration, dry eyes and nausea in both small and large commercial spaces. Interior plant-scaping is not only recommended for aesthetic reasons; it also keeps the air around you clean.
